TO THE

BOARD OF DIRECTORS

OF THE

Phoenix Fire-Office,

THIS

WORK

IS MOST RESPECTFULLY DEDICATED,

BY THEIR

MOST OBLIGED AND OBEDIENT

HUMBLE SERVANT,

J. LOCKIE.

LONDON, Jan. 1810.

1201329

PREFACE.

THE Author of the following Work, in the Discharge of his widely-extended Duties, having frequently experienced the Inaccuracy of all the existing Registers of the Streets, &c. of the Metropolis, and their total Inadequacy as a Means of ascertaining their Locality and Bearings, was induced to form one upon a more correct and explanatory System; and it was not until he had experienced the great Utility and Convenience of such a Book of Reference, that he determined to undertake the arduous Task of forming a complete Analysis of the Town, and to offer it to the Public in its present Form.

The Want of a Publication of this Description has long been felt by all Classes of the Community; particularly by the BANKER, the MERCHANT, the MANUFACTURER, and the TRADER; and when the present almost unbounded Extension of the Capital is considered, the Author presumes that its general Utility and Convenience will be its best Recommendation to public Favour.

The PLAN of the WORK will be found to be perfectly novel and original, and the Author has the Satisfaction to say, that it has received the very flattering Approbation and Encouragement of several of the GOVERNMENT and other PUBLIC OFFICES.

With

With the fulleſt Confidence, therefore, that the Result of Seven Years Aſſiduity and patient Labour for the public Convenience, will be conſidered as entitling him to ſome Share of public Patronage, the Author has only to add, that the whole Work having been accomplished by his own personal Exertions, he is enabled to offer the fullest Assurances of the Accuracy of its Execution.

PHŒNIX FIRE-OFFICE,
LOMBARD-STREET,
London, January 1810.

ADVERTISEMENT.

LOCKIE'S

NEW MAP OF LONDON.

THE PUBLIC are respectfully informed, that a NEW and ACCURATE PLAN of LONDON, comprehending all the recent Improvements to the present Time, and reduced to the convenient Size of 4 Feet by 2, has just been completed by the Author of the following Work, and will be published by Subscription, Price 14s.

Of the Accuracy with which the Plan is executed, the Author humbly conceives it unnecessary for him to speak; he begs however respectfully to refer to his present Work for a Specimen of his general Correctness.——Of its Copiousness he presumes confidently to assert, that it far exceeds that of any other Plan of London now extant, containing upwards of Two Thousand Places, the Names of which are not to be found in the *large Map of Thirty-Two Sheets, by* HORWOOD.

*** Subscriptions for the above PLAN are received by the Author, at the PHŒNIX FIRE-OFFICE, *Lombard-Street.*

LOCKIE'S,

TOPOGRAPHY OF LONDON.

A

ABBEY-PLACE, Tavistock-Mews, Russell-Square,—the first on the L. in Little Coram-st. from 54, Great Coram-street.
